EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Ovanezian on 09/28/2006.

The application has been amended as follows: in line 8 of line 24 replace the recitation "power to the" for "power to a".

Allowable Subject Matter

Claims 1-49 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-49 are allowed because the references cited fail to teach, as applicant has a loop extender communications module having a power supply coupled to the ' the first local loop and the second local loop for receiving power and control signal and providing power and control signal to a first local loop and the second local loop, and coupled to the plurality of loop extenders for providing the control signal and power to the plurality of loop extenders; providing power to a loop extender communications module having a power supply by supplying a voltage between a first local loop of the plurality of local loops and a second local loop of the plurality of local loops for providing power to a plurality of loop extenders; and transmitting control signals to a loop extender communications module having a power supply via the first local loop and via the second local loop, receiving the

control signals, and broadcasting the control signals via the loop extender communications module having a power supply to the plurality of loop extenders; and a loop extender communications/power supply coupling the first local loop and the second local loop to the plurality of loop extenders for providing power and broadcasting the control signals to the plurality of loop extenders, the loop extender communications/power supply including a second modem for communication with the plurality of loop extenders; and a central office controller/power supply coupled to the first local loop via a first transformer and coupled to the second local loop via a second transformer for providing power to the loop extender communications/power supply, generating the control signals, and sending the control signals to the loop extender communications/power supply, the central office controller/power supply including a first modem for communication with the loop extender communications/power supply, a processor coupled to the first modem, and loop extender management software executable by the processor for generating the control signals, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
